

**Salmon & Halibut Fishing Charters**

## *Fishing Report*

May 22, 2011

Well, spring is finally here and so are the fish!

We have been going out and returning with our full limit of Springs.

We had a commercial opening that slowed the fishing down a little but only for a day or two.

There is a lot of fish coming this year; the fall Columbia run is being predicted at 780,000 with 260,000 five year old salmon! All the rivers down south are predicting record runs for the last 20 years!

Halibut fishing is a little slow but is starting to improve. I went out with a friend and boated a 25 and 50 lb hali!

Should be a great year!!

Tight lines,  
Hank
