

**Salmon & Halibut Fishing Charters**

## *Fishing Report*

As at July 5, 2010

Well, we have started getting some bigger fish, the Columbians are coming in.

We have been going out everyday to the Southwest corner and using 6" Tomic spoons. Picking up lots of Springs (Kings) ranging from 16-20lbs with the odd larger fish mixed in. We are expecting the 30lb plus fish any day!

Halibut fishing has been real steady and we have been getting out limits every day either at the Lighthouse Bank or at the Wreck.

There was a 122lb Halibut caught at the Lighthouse Bank last week!! Most of the Halibut are in the 15 - 40 lb range, these are the best tasting!

Tight lines!!

Hank
